

# Release Note

Product Name: AimSafety PM150-CO2 USB Link Software

Version: V3.3

Release Date: April 2023

## What's New?

New factory address and company name have been updated.

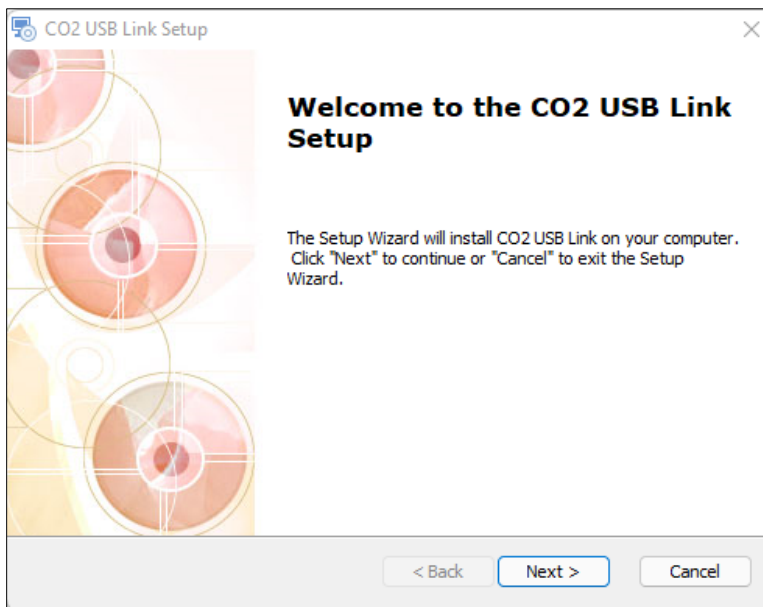

## Installation Instructions

### Installation

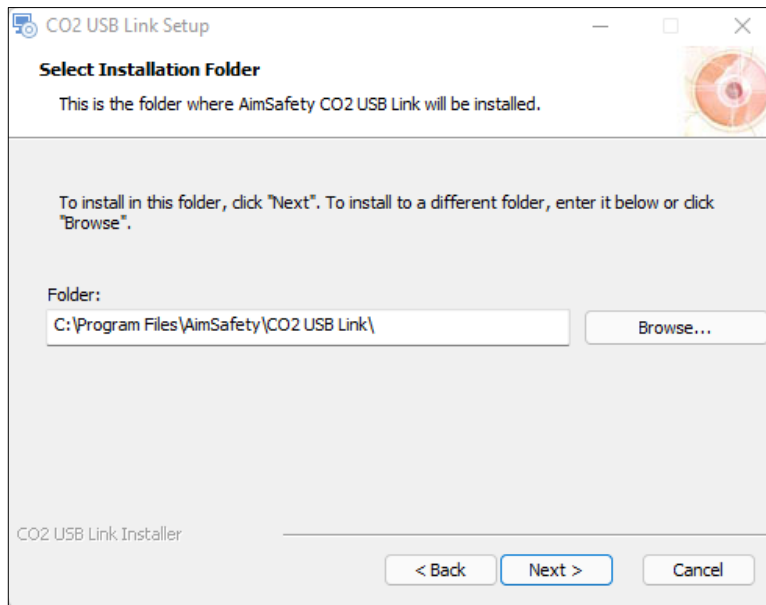

Download the software saving it in a place that you will remember.

### Installing the new software version:

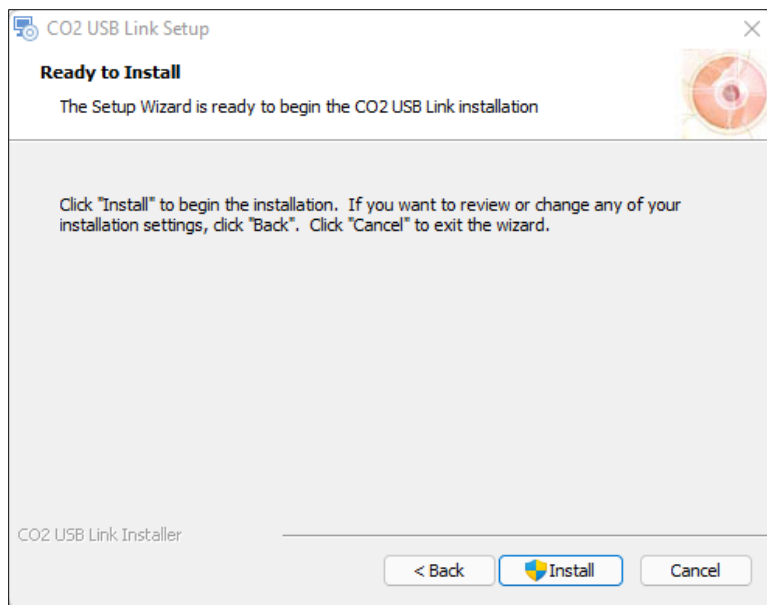

1. Navigate to the saved file.
2. Double-click the file to run the installer.
3. You may receive a security warning. Click **Run** or **Run Anyway** to continue with the installation.
4. The CO2 USB Link Setup wizard will start. Click **Next**.

- Now select the installation folder. The default folder is the best option for most people. Click **Next**.

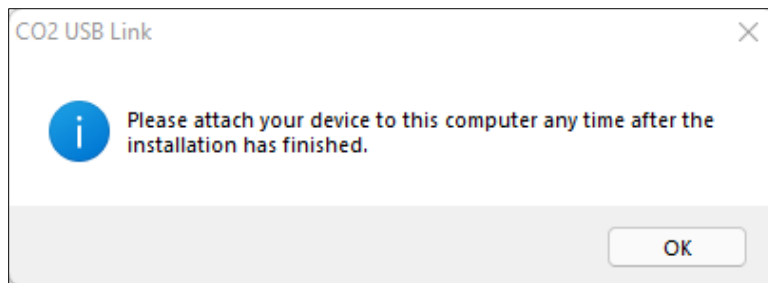

- The installation is ready to begin. Click **Install**.

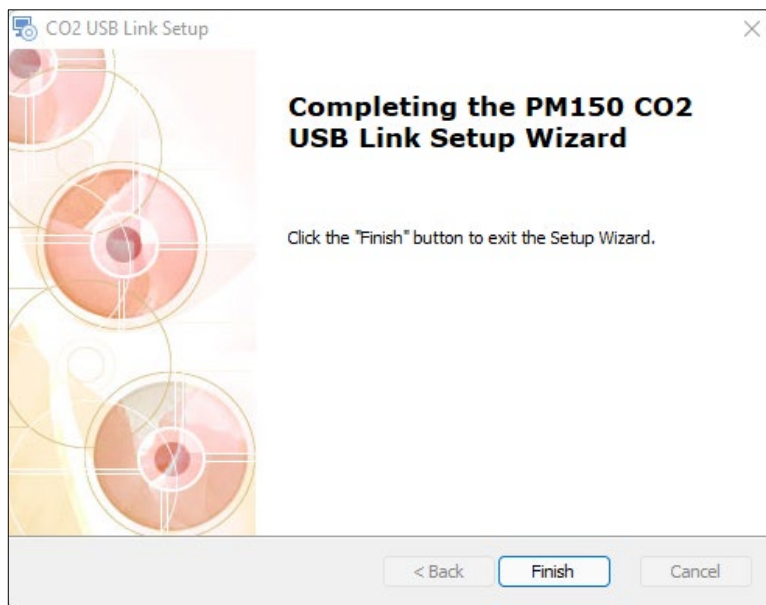

7. You may receive a warning. Click **Yes** to continue.

8. A message pops up with a reminder to attach the device to the computer any time after install.

9. When the installation is complete, click **Finish** to exit the Setup Wizard.
